### **Project Description**

The project will contribute to improving the economic situation of indigenous and peri-urban youth, through the articulation of public and private actors, as well as the development of the foundations for a sustainable rural youth entrepreneurship ecosystem in the departments of Potosi, Tarija and La Paz, linked to local, regional and national urban markets in the sectors of food processing, gastronomy, tourism, technology, creative and cultural industries, and others, promoting green jobs<sup>6</sup>. To this end, the project will build an intervention model that develops the talent and skills of indigenous and peri-urban youth to create an urban-rural connection through digitalization and inclusion of the population.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
