Project Description

The main aid of the CT is to contribute to closing the gaps in coverage and quality of rural Water, Sanitation and Hygiene (WASH) services that are socially acceptable, affordable and sustainable, through building the necessary capacities and creating enabling environments for changes to last over time. The intervention will use a three-pronged approach of 1) policy influence, 2) innovation and 3) knowledge management. The SIRWASH geographic intervention is planned for rural populations in Bolivia that suffer from poor access to WASH services, under the perspective of "leaving no one behind".

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
