Investment Amount (USD)	$ 0.75 million

Support for capacity building and pre investment studies with a focus on resilience in the Katari basin

Project Description

The overall objective of the TC is to contribute to the development of capacities, studies and tools for the sustainability of the Katari Watershed Management Unit (UGCK), to support replicability and exchanges with other UGCs in Bolivia and the LAC region, thus contributing to build the necessary capacities to create an enabling environment for the management of Integrated Water Resources Management (IWRM).

Support for capacity building and pre investment studies with a focus on resilience in the Katari basin

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
