Support for the preparation of the Mi Teleferico Sustainable Electric Mobility and Urban Integration Program (BO-L1229), and technical assistance for the optimization of the company's operational

Project Description

The objective of the TC is to support the preparation of the Mi Teleferico Urban Integration and Sustainable Electric Mobility Program (BO-L1229) and provide technical assistance for the optimization of the company's operational management. The TC seeks to contribute to the development of strategic products for the State Cable Transport Company "Mi Teleferico" (EETCMT) and entities linked to urban mobility, as well as the strengthening of capacities for the proper management and planning of urban mobility in Bolivia . Within the framework of operational support, the CT will finance studies for the preparation of the BO-L1229 program.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
