### **Project Description**

The objective of technical cooperation is to strengthen Bolivia's capacity to prevent, detect, investigate, punish and eradicate the TIM, through the exchange of knowledge, experiences and good practices with the countries of the Andean community that have made significant progress in this area: Colombia, Ecuador and Peru. Based on the knowledge shared, we will seek to identify good practices and lessons learned that can be replicated in the context of Bolivia.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
