# Support of the analysis of expenditure, improvement of systems and updating of regulations in the health sector in Bolivia

## Project Description

According to the IADB, the objective of the Operation is to strengthen decision-making regarding health expenditure in Bolivia through the development of costing, prioritization, and health technology assessment tools. This will be achieved through: (i) strengthening management systems and processes related to the use of resources; and (ii) supporting the development and updating of national and subnational regulations that contribute to improving efficiency in the health sector.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
