### Project Description

According to the IADB, the overall objective is to analyze policy options to promote the creation of formal employment opportunities. The specific objectives are to: (i) analyze policy proposals that foster an enabling environment for business growth and the generation of formal employment opportunities; and (ii) propose policy alternatives and/or programs that promote the acquisition and upgrading of workers' skills to enable access to formal employment opportunities. The analyses and the design of policies/programs should consider options to promote access to higher-quality jobs for specific groups such as women, youth, persons with disabilities (PWD), members of the LGBTQ+ community, and Indigenous people.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
