Project Cost (USD)	$ 0.25 million

Project Description

According to the IADB, the objective of this TC is to contribute to the strengthening of public finances and support economic stabilization efforts in Bolivia through the generation of analytical work, technical evidence, and specialized studies that inform fiscal and macroeconomic decision-making. The TC will support the design, evaluation, and prioritization of reforms aimed at improving fiscal sustainability, enhancing public expenditure efficiency and strengthening coordination across different levels of government.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
