## Project Description

According to the IADB, this Technical Cooperation (TC) will strengthen the capacity of the implementing units of Programs BO-L1233 and BO-L1212 to implement and execute projects related to public spaces, urban mobility, and heritage infrastructure, with a focus on gender, accessibility, and resilience. The specific objectives of the TC are: to support the preparation of bidding processes with technical inputs, to strengthen the management and implementation capacities of the implementing units, and to strengthen the aspects of climate change, gender, and inclusion in both loans.

## ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
