IADB-BR-L1491

Energy Infrastructure Investment Program for the Celesc

Quick Facts

Countries	Brazil
Specific Location	Santa Catarina
Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	B
Borrower	Government of Brazil
Sectors	Energy
Investment Type(s)	Loan
Investment Amount (USD)	\$ 276.00 million
Loan Amount (USD)	\$ 276.00 million
Project Cost (USD)	\$ 377.30 million

Project Description

The program's overall objective is to help boost productivity in the State of Santa Catarina by facilitating a quality supply of electric power. Its specific objectives are to: (i) satisfy the growing demand for electric power by expanding and modernizing CELESC-D's distribution network; (ii) improve the reliability of the power grid; (iii) enhance CELESEC-D's operational efficiency; and (iv) foster greater gender equality at CELESC-D.

Investment Description

- Inter-American Development Bank (IADB)

Contact Information

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
