Improving Social Infrastructure in Brazil's Southern Region by promoting public and private investments at the municipal level with high positive externalities by expanding the availability of financing in the area of labor intermediation, labor market skills in the area of tourism and health. The program also aims to provide an alternative source of resources for municipalities, and is in line with investment needed in the social sector at municipality level

Investment Description

- Inter-American Development Bank (IADB)

The country's counterpart ammount to USD 25,000,000

Contact Information

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
