Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	B
Borrower	Goverment of Brazil
Sectors	Infrastructure, Transport
Investment Type(s)	Loan
Investment Amount (USD)	$ 150.00 million
Project Cost (USD)	$ 150.00 million

Project Description

The general objective is to contribute to the economic and social development of the State of Ceara through investments in infrastructure works, improving the highways that will be the object of intervention with the expansion of the paved network and the enlargement of the road platform. This will be done by: reducing transportation costs; improving logistics and regional and social integration; improving trafficability and accessibility of the population to essential and relevant services; and increasing the safety of road users under the responsibility of the Superintendence of Public Works of the State of Ceara - SOP/CE.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
