Integrated Project for Water Security, Environmental Sustainability and Socio-productive Development of the Piauí and Canindé Rivers Basin, State of Piauí - Sustainable and Inclusive Piauí

Project Description

The general objectives of the project are to improve the income, access to basic services and adaptation to climate change of the rural population. The specific objectives are: (i) improve access to water for human and productive consumption; (ii) improve the environmental conditions of rural families and their surroundings; and (iii) increase the adoption of agricultural technologies, including CC adaptation and mitigation technologies, and the integration of producers into value chains.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
