Project Description

This project aims to contribute to the mitigation of two persistent social inequalities facing the residents of Rio de Janeiro's favela communities: substandard housing and infrastructure and youth unemployment. Because for this segment of the population, access to basic public services is incomplete and the youth unemployment rate almost doubles the national average, the situational context is highly conducive to the deterioration of citizen security, and hence it is critical to generate and evaluate mechanisms for the design of public policies that discourage youths from incurring in illegal and criminal activities.

ACCOUNTABILITY MECHANISM OF IDB/ IIC

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
