## Project Description

The objective of this technical cooperation is to support the generation of capacities in the prefecture of Campinas so that it can act as an effective articulator of its ecosystem, in order to simultaneously promote the generation of wealth and improve the quality of life of the people to from the digital transformation of the city. For this, the project will act in three fronts: (i) development of a strategy of digital transformation of Campinas; (ii) design of policy instruments for the digital transformation of the productive sector of the city; and (iii) design and implementation of digital governance and public procurement initiatives for innovation.

## Contact Information

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
