Project Cost (USD)	$ 0.50 million

Project Description

According to the bank, the general objective of the TC is to improve the planning and the public policies of the Solid Waste sector in Brazil, through: i) to support the strengthening of SINIR (Sistema Nacional de Informações sobre a Gestão dos Resíduos Sólidos), to improve its contribution as a support instrument for the formulation, monitoring, evaluation and systematic implementation of the PNRS (Política Nacional de Resíduos Sólidos); ii) support the identification and evaluation of investment projects in infrastructure for the sustainable management of solid waste, including the possible generation of energy, and (iii) promote dialogue on public policy among the main players in the solid waste sector.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
