Investment Amount (USD)	$ 0.15 million
Project Cost (USD)	$ 0.22 million

Project Description

The objective of this TC is to strengthen the capacities of public officials from state and municipal Public Security Secretaries in Brazil to adopt evidence-based public security policies in Brazil by (i) training them on how to design and implement Randomized Control Trials (RCTs) that assess the impact of some of their key interventions, and (ii) facilitating their access to the knowledge base about what works and what does not in public security.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
