Support for Establishing the University-Led International Hub for Sustainable Development (HIDS) in Campinas

Project Description

The objective of this technical cooperation is to develop a master plan and to support the conceptualization and building of the strategic framework for the creation of the International Hub for Sustainable Development (HIDS). The HIDS aims (i) to support scientific and technological activities while integrating the university and technology campuses with the rest of the city of Campinas; (ii) to provide a regional development model boosting innovative and sustainable development in Campinas, Sao Paulo, based on international best cases; and (iii) to position itself as a leading innovation hub in Latin America to integrate scientific and technological knowledge to contribute to achieving the UN Sustainable Development Goals (SDGs).

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
