Project Description

The solution proposed is to pilot a high-impact online coding bootcam modality that includes the employability outcomes of the training, and to develop an online hiring platform for potencial employers to improve the ability of Reprograma to generate revenue and become self-sustainable over time. This solution will allow Reprograma to scale its program, to reach a higher number of vulnerable women in Brazil, and to consolidate its financial sustainability.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
