Support BNDES in the preparation of Public-Private Partnership Projects for Sustainable Forest Management in Brazil

Project Description

The objective of this TC is to promote a sustainable model of private participation in the management of national forests in Brazil, introducing higher standards of social and environmental protection and greater value for money and fiscal efficiency. This TC will finance i) technical, legal, financial and environmental feasibility studies; and ii) the structuring of sustainable forest concession projects.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
