Project Description

The objective of this Technical Cooperation (TC) is to strengthen the institutional capacities of subnational governments to design and implement citizen security projects in the context of the Federative Program for Intelligent Public Safety (PROSEG-FEDERATIVO / BR-L1547), in addition to supporting the development of tools for the design and/or implementation of the loan. The specific objectives of the TC are: (i) strengthen the institutional capacity of the States and Municipalities participating in PROSEG, in managing security and preventing violence; (ii) identify synergies and promote networking among these subnational entities; (iii) generate economies of scale and ensure a higher quality of program investments; (iv) reinforce the alignment of financed projects with the objectives of SUSP's federal policy; and (v) orient the client toward greater and better use of the positive menu of structured and evidence-based solutions that are eligible for funding.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
