Project Description

This Technical Cooperation (TC) aims at supporting Brazilian municipalities to design integral urban development projects to promote urban economic reactivation and socio-economic development. The specific objectives are (i) to set up a joint strategy with the Brazilian National Development Bank (BNDES) to design and implement financial mechanisms for integral urban development projects, and (ii) provide technical assistance to medium and large-sized municipalities during the preparation of proposals for urban development projects, including mobilizing expertise and resources from the private sector; and (iii) ensure that those proposals contemplate the requirements and the necessary studies aligned with IDB strategies.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
