Sustainable Transport and Logistics in Brazil (InfraLog)

IADB-BR-T1478

Quick Facts

Countries	Brazil
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Borrower	Goverment of Brazil
Sectors	Climate and Environment, Infrastructure, Transport
Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.80 million
Project Cost (USD)	$ 0.80 million

Project Description

The objective of this TC is to support the Brazilian Government's efforts in delivering sustainable infrastructure by promoting a modal shift to low carbon transportation system through improvements in long-distance transport and logistics planning and infrastructure services. It will achieve this by: i) developing feasibility assessments for sustainable transportation and logistics, ii) mitigating climate risk and vulnerability in transport and logistic infrastructure, iii) design of tailored sustainable financial instruments to enable private and public investment; and iv) knowledge transfer on sustainable transport infrastructure and logistics.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
