Project Description

It is the strengthening of the management of the federal government's public finances, through: (i) corporate modernization; (ii) better coordination between the treasury and public debt management areas, including ESG considerations in the issuance of public securities; (iii) better coordination of subnational public finances; (iv) continuity of expansion and improvement of the use of modern information technology and digital government tools that increase the efficiency of public finance management and strengthen fiscal transparency. With this support, we will continue the collaboration that the Bank has had with the authorities of the National Treasury Secretariat, which began with the Technical Cooperation ATN / AA-16776-BR.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
