Leverage the use of Big Data solutions for Brazilian Smart Cities

IADB-BR-T1496

Quick Facts

Countries	Brazil
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	C
Borrower	Government of Brazil
Sectors	Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.20 million
Project Cost (USD)	$ 0.20 million

Project Description

To support local governments in Brazil's smart cities in adopting data-driven solutions for urban planning. The specific objectives are (i) to improve urban management and decision making through the design of innovative strategies and the implementation of pilot projects in the municipalities Recife, Sao Luis and Vitoria to efficiently use Big Data solutions to respond to cities' challenges; and (ii) to strengthen the capacity of city officials through knowledge products and capacity building activities in using Big Data.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
