Project Description

Support the strengthening of governance and processes for the management of contingent liabilities and precatórios. Precatórios are formalizations of requests for payment of a certain amount per beneficiary, due by the Public Treasury, in the face of a definitive or unappealable court conviction. The specific objectives are: (i) to increase the effectiveness of the management of contingent liabilities and precatórios, through the implementation of processes aimed at proactive action in the identification and mitigation of risks related to contingent liabilities and modernization of the validation and control systems of precatórios, with an emphasis on the use of new technologies and jurisdictional functionality to improve work processes; (ii) to improve the management and monitoring of RRF agreements, generating effective results for federal relations.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
