### **Project Description**

The objective of this TC is to provide upstream and downstream specialized advisory service to the preparation of PPP projects in Brazil, in order to further develop the private participation in infrastructure in the country and to address key bottle necks to promote continued improvement of the country's infrastructure through private participation. Therefore, this TC will: (i) support the development or improvement of specific institutional arrangements in the PPP sector, and (ii) provide advisory service for the appraisal and structuring of specific PPP projects, either for the Federal Government or for Subnational Entities, in accordance with the IDB's institutional strategies and country priorities.

### **ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST**

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
