IADB-BR-T1538

Bioeconomy Ecosystem Hubs: Our way of enhancing bioeconomy businesses in the Amazon

#### **Project Description**

The objective of the project is the creation of Bioeconomy Ecosystem Hubs in the Legal Amazon Region to strengthen and articulate the local bioeconomy businesses through supporting programs and training; creation of a network to connect local actors and stakeholders, so that they can strengthen local networks; and the creation of mechanisms so that this model can be adopted and/or replicated as public policy in the territory.

ACCESS TO INFORMATION

You can submit a request for information disclosure at:

https://www.iadb.org/en/access-information/information-request.

#### **ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST**

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
