Project Cost (USD)	\$ 0.28 million

Early Warning System Mechanisms to Reduce Litigation in Brazilian Tax Litigation

IADB-BR-T1546

Project Description

The objective of this Technical Cooperation (TC) is to contribute to the reduction of tax litigations by the federal government through the following actions: (i) promote tax compliance and foster legal certainty; (ii) strengthen the relationship of trust and loyalty between taxpayers and the Treasury/tax administration; (iii) reduce the number of pending tax disputes (also known as "stock"); (iv) improve the speed in the resolution of cases, through the use of advanced technological tools, including artificial intelligence, and consensual solutions through the use of alternative resolution methods; and (v) promote the exchange of good practices at the national and international level to prevent and reduce tax litigation.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
