Project Description

The objective of this TC is to support the Brazilian government in restructuring its national climate policy and governance, while enhancing the country's environmental and social systems to improve their effectiveness, by providing technical assistance to the Interministerial Committee on Climate Change (CIM). At the same time, it aims to realign national public policies to support sectoral mitigation and adaptation actions to promote a just transition to a low-carbon and resilient economy.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
