## Project Description

The general objective of this TC is to support the design and implementation of Brazil's Foreign Private Capital Mobilization and Currency Hedging Program to facilitate foreign investments in sustainable infrastructure and support the country's ecological transformation. The specific objectives are to support (i) the implementation of certain reforms under the purview of Brazil's National Monetary Council and regulations to be issued by the Ministry of Finance and the Ministry of Environment and Climate Change; and (ii) the design and implementation of specific lines of credit to be operationalized by Brazil's Climate Fund geared towards private capital mobilization and currency hedging.

## ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
