Project Description

According to the IADB, the general objective of this Technical Cooperation (CT) is to strengthen the Project Factory that has been created at the BNB in partnership with the IDB, enhancing its capabilities on the preparation of public private partnerships projects of renewable energy infrastructure. The objective will be achieved through the preparation of technical, pre-feasibility/feasibility studies, and institutional strengthening activities that will focus on promoting the integration of VRS into the NIS.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
