Project Description

The Project objective is to operationalize and scale up Biodiversity Units in the Amazon region of Brazil, in the State of Para. Biodiversity Units will be underpinned by a payment for environmental success structure, creating results-oriented, long-term programs that will increase the likelihood of nature-positive outcomes and improved livelihoods for local communities and corporate entities willing to invest in it.

Private Actors Description

According tp IADB, Terrasos will be the Executing Agency for this project and will sign the agreement with the IDB Lab.
Terrasos is a company specialized in the structuring and operation of environmental investments, based in Bogotá, Colombia.
Their work is focused in four main areas: offset and environmental investments, impact analysis, development of the
intervention strategies and data management. This experience has allowed them to create biocredits schemes that have
attracted several corporations to invest in conservation and restoration projects.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
