Project Description

According to the IADB, the objective is to support the design of the operating model for the implementation of the Consumer Tax Reform (RCT) in Brazil, with a focus on strengthening the institutional capacity of the different levels of government. This support will contribute to the establishment of the new administrative, technological and governance processes required for the transition to the new taxation system based on the dual Value Added Tax (VAT), ensuring its efficiency, federative coordination and long-term sustainability.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
