## Project Description

The general objective of this Technical Cooperation (TC) is to support the Brazilian Securities and Exchange Commission (CVM) and the Associação Brasileira de Desenvolvimento (ABDE) in advancing initiatives within the Laboratory of Financial Innovation (LAB), reinforcing it as a key institutional platform for the integration of Nature-based Solutions (NbS) into infrastructure planning and financing in Brazil and Latin America, while expanding its capacity to develop and implement innovative financial solutions that address sustainability, inclusion and technological challenges. The specific objectives are: (i) enhance the LAB's capacity to support knowledge generation about successful cases of NbS through a structured dialogue, promoting the engagement of stakeholders; and (ii) promote knowledge share initiatives through a series of webinars (Knowledge Track Initiative).

## ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
