## Project Description

The objective of this TC is to strengthen technical and institutional capabilities of the Brazilian Government, through the MCOM, State Governments, the ANATEL, and DFIs for the design, preparation and implementation readiness of digital infrastructure and digital inclusion projects and strategic policy and regulatory frameworks in Brazil. The TC will advance the national Meaningful Connectivity agenda, promote regional digital integration, and enhance Brazil's ability to design and implement sustainable, inclusive, and data-driven digital infrastructure projects, including through collaboration on affordability, digital inclusion, and digital skills initiatives.

## Investment Description

- Inter-American Development Bank (IADB)

## Contact Information

## ACCESS TO INFORMATION

You can submit a request for information disclosure at:

<https://www.iadb.org/en/access-information/information-request>.

## ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
