Project Description

To strengthen timber legality, traceability, and market accountability in the Brazilian Amazon by improving the adoption of interoperable verification systems, forensic and geolocation-based traceability tools, standardized protocols, and stakeholder capacities. The project will enhance the ability of public institutions, enforcement agencies, private-sector actors, and local communities to identify, verify, and promote legally sourced timber, thereby reducing opportunities for illegal logging, supporting compliance with emerging international regulations, and contributing to sustainable forest management and forest conservation.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
