## Project Description

The general objective is to strengthen the institutional, regulatory, technical, and operational capacities of the Federative Republic of Brazil, through the Ministry of the Environment and Climate Change (MMA), and of subnational environmental agencies within the National Environmental System (SISNAMA) for the environmental and social management of critical and strategic minerals (CSM). Specific Objectives: (i) strengthen the capacities of the MMA, the Brazilian Institute of the Environment and Renewable Natural Resources (IBAMA), and the Chico Mendes Institute for Biodiversity Conservation (ICMBio) for environmental licensing, strategic and territorial planning, socio-environmental impact assessment, and interagency coordination related to CSM; and (ii) strengthen the technical capacities of staff of federal and subnational environmental agencies within SISNAMA through training on the tools developed under the TC.

## ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
