Project Description

The objective of this Technical Cooperation (TC) is to strengthen the analytical, operational, and planning capacities of subnational governments in Brazil for the management, design, and implementation of care policies and social services. To this end, the TC will support: (i) the development of a methodological framework to assess local capacities and gaps; (ii) the preparation of operational guidelines for structuring investment portfolios; (iii) the production of a technical note providing an overview of the situation at the subnational level; (iv) the organization of a technical workshop to disseminate tools and identify territorial needs; and (v) the development of tailored investment plans for prioritized governments.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
