### Project Description

This project seeks to improve the integration and provision of services for labor mediation for employment seekers and businesses in Chile. To do so, it seeks funding from the IDB to revise the governance model of labor mediation services (servicios de intermediación laboral, SIL), adjust the SIL's services and restructure its administration, and create an information system for the labor market and increased understanding of the sector.

The project builds on a series of previous projects: CH-L1064, CH-T1120, CH-L1095, CH-T1175, and CH-T1179.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
