### Project Description

The general objective of the operation is to help strengthen investment to foster the sustained, sustainable growth of the Chilean economy. The specific objectives are to: (i) maintain a stable macroeconomic environment; (ii) support the creation and implementation of an institutional structure for the efficient handling of investment projects; (iii) help strengthen public and private entities that are involved in bureaucratic procedures for investment projects and develop proposals to improve regulatory frameworks that impact those procedures; and (iv) establish a results monitoring and evaluation mechanism for the Sustainable Project Management Office. This program is structured as a multi-tranche policy-based loan (PBL). Loan proceeds will be disbursed in two tranches.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
