Project Description

The general objective of the program is to promote an improvement in Chile's competitiveness that promotes sustainable and inclusive growth. The specific objectives are: (i) accelerate the digital transformation of public services, as well as digital connectivity; (ii) promote the transition to circular models of production and consumption; and (iii) promote, with special emphasis on women, the recovery and formalization of employment through support for SMEs, stimulation of hiring, and targeted training of the workforce.

The bank has categorized this project as having an environmental and social risk category of B13.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
