Project Description

Support two key pillars of the Ministry of Agriculture to strengthen their functions of protection and monitoring of essential patrimonies for food security and food sovereignty, and provide better quality services for farmers, agro-exporters and food importers. The Program will support the digital transformation of Servicio Agricola y Ganadero (SAG) and Instituto Nacional de Investigaciones Agropecuarias (INIA), the modernization of their infrastructure and the strengthening of their human resources. These investments will reduce the costs of food production and increase its adaptation to climate change impacts.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
