Project Description

The program objective is to contribute to greater transparency and integrity by strengthening and consolidating the legal framework and the institutional mechanisms for its implementation. The specific objectives are to: (i) reduce inefficiencies in access to public information; (ii) attain increased effectiveness in the prevention and detection of improper conduct in public administration; and (iii) increase the effectiveness of the financial transparency framework. This is the second of two consecutive technically interrelated but independently financed operations that are to being undertaken as a programmatic policy-based loan (PBP).

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
