IADB-CH-L1182

Rapa Nui Water and Electricity Services Sustainability Program

Project Description

The overall objective of the program is to contribute to the sustainability of Rapa Nui's water and electricity services. The specific objectives are: (i) increase the operational efficiency of water services; (ii) reduce dependence on fossil fuels in electricity generation; and (iii) strengthen the business management of Sociedad Agricola y Servicios Isla de Pascua SpA (SASIPA).

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
