### Project Description

The Technical Cooperation project will contribute to an inclusive economic development in the Chilean Patagonia through the implementation of a business accelerator that will support micro and small businesses with growth potential (SGBS Small and Growing Businesses) in the southern regions of Chile: Magallanes, Aysen and Los Lagos. The goal of the project is the generation of 35% average increases in sales of the companies that participate of the Advanced Accelerator portfolio. The expected result is to consolidate a regional platform to support and facilitate access to markets and finance for micro and small businesses with growth potential.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
