## Project Description

The objective of the CCLIP is to promote an improvement in sustainable productivity in Chile. To this end, the programs to be financed will be aligned, among others, with the following main lines of work: (i) facilitate companies' access to productive financing, (ii) promote the digital and green transition of SMEs, (iii) strengthen capacities and human capital for innovation, (iv) promote the internationalization of companies to increase the country's productivity, (v) promote gender parity in the country's productive fabric, and (vi) promote the development of new sectors that contribute to environmental sustainability and the fight against climate change

## Investment Description

- Inter-American Development Bank (IADB)

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
