Project Description

This Technical Cooperation project aims to promote improvements in the scope of the community-wide Territorial Planning Instruments (IPT) in Chile, allowing progress towards the development of sustainable cities, socially and spatially integrated, through the formulation of processes and methodologies that incorporate mobility and climate change as central axes of urban development and as components that accompany the formulation of IPT in all its stages.

Investment Description

- Inter-American Development Bank (IADB)

The total budget for this non-reimbursable Technical Cooperation operation is US$600,000. US$480,000 comes from the the IADB's Ordinary Capital, and the remaining US$120,000 corresponds to the local counterpart in kind.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
