Water Scenarios 2030

IADB-CH-T1177

Quick Facts

Countries	Chile
Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	C
Voting Date	2016-10-25
Sectors	Water and Sanitation
Investment Amount (USD)	$ 0.40 million
Project Cost (USD)	$ 0.80 million

Project Description

The overall objective of the project is to build collectively agreement on different water scenarios for the 2030-2050 periods, which will contribute to the safety and sustainability of the water resources and the formulation of public water policies and the identification of opportunities that will be valued in different sectors in Chile.

Investment Description

- Inter-American Development Bank (IADB)

Contact Information

No project contacts provided at the time of disclosure.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
