## Project Description

The project aims to strengthen the institutional capacities of public entities, specifically human capital and strategic management of information, in strategic sectors of development where evidence-based decision making is critical to the implementation of successful public policies. Thus, these entities will be able to implement advanced analyzes with massive data that contribute to: (i) improve decision-making and elaboration of sectoral public policies based on evidence; (ii) to develop common diagnoses at the country level; And (iii) foster collaboration among government agencies to develop multisectoral policies in a sustainable manner over time.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
